Lab 2: Implementing stories

Based on the work you've done in Lab 1, complete the following exercises:

Exercise 1:

Implement a **Suspend** accounts operation based on the story below.

In some situations, accounts may be suspended and no further transactions may occur until the account is re-instated. Add a "Suspend" function so no transactions are allowed if an account is suspended.

Exercise 2:

Implement a type of **Junior Account** based on the story below.

Only customers under the age of 16 may open a Junior account. No overdraft allowed in this account. The maximum amount of cash a customer can withdraw is 100 Yuan/day.
